### **Link to Mission statement**

*Colaiste Iascaigh* in conjunction with its education partners is committed to providing an environment where each student is cherished equally and is nurtured to a personal, intellectual and moral maturity.

The Acceptable Usage Policy helps to set the standards that the school community aspires to; students and staff work together to continue to develop the school and maintain an atmosphere in which all individuals feel safe.

The aim of the Acceptable Use Policy (AUP) is to ensure that the school community benefit from learning opportunities offered by the Schools Internet resources in a safe and effective manner. Internet use and access is considered a school resource and privilege. Therefore, if the School AUP is not adhered to, this privilege will be withdrawn and appropriate sanctions – as outlined in the AUP – will be imposed. Due to emergency school closures in March 2020, during the COVID-19 pandemic, Coláiste Iascaigh adapted their teaching and learning approaches to facilitate online learning practices. All staff and students have an Office 365 school account which can be signed into both on site and remotely. This facilitated the delivery of online teaching and learning during school closure.

In June 2020, teachers in Coláiste Iascaigh participated in 10 hours online training specifically aimed at using Office 365 as an online teaching tool which can be used both in and outside of the classroom. When students returned to school in September 2020 they received ICT training with the schools ICT coordinator. Teachers are encouraged to use Microsoft Teams in their teaching and learning practices with students so they are familiar with it in the event of a possible future school closure.

In September 2021 First Years received ICT induction training with the school ICT coordinator.

**Re: Internet Permission Form**

Dear Parent/Guardian

As part of the school's education programme we offer pupils supervised access to the Internet. This allows students access to a large array of online educational resources that we believe can greatly enhance students' learning experience.

However, access to and use of the Internet requires responsibility on the part of the user and the school. These responsibilities are outlined in the school's Acceptable Use Policy (enclosed). It is important that this enclosed document is read carefully, signed by a parent or guardian and returned to the school.

Although the school takes active steps to promote safe use of Internet, it recognises the possibility that students may accidentally or deliberately access inappropriate or objectionable material.

The school respects each family's right to decide whether or not to allow their children access to the Internet as defined by the school's Acceptable Use Policy.

Having read the terms of our school's Acceptable Use Policy, you may like to take a moment to consider how the Internet is used in your own home, and see if there is any way you could make it safer for your own family.

Yours sincerely,

---
